

## 2005 Rabies Vaccination Clinics for Dogs, Cats, and Ferrets Recorded Information Line – March 1, 2005

---

Children have the highest rate of Emergency Department visits for dog bite injuries in the U.S. The Broome County Health Department and the Front Street Dog Shelter Alliance have joined forces to provide Rabies vaccinations for dogs, cats and ferrets in Broome County in order to protect the children of our community. Rabies, a fatal disease transmitted from animals to humans through bite wounds, has increased in frequency in New York State over the past few years. Last year, there were 11 documented cases of animals with Rabies in Broome County. Following is a list of upcoming sites and clinic dates for the spring and summer:
